Google Earth VR

The world has so many beautiful and amazing places to visit. If we're lucky, we're able to travel and see a few of them. What if we could see them all? With Earth VR, you can fly over a city, stand at the top of the highest peaks, and even soar into space. Now, at 196.9 million square miles, we know the world is pretty big, so we've made it easy to find great places to visit. Earth VR comes with cinematic tours and hand-picked destinations that send you to the Amazon River, the Manhattan skyline, the Grand Canyon, the Swiss Alps, the top of Mount Everest at dawn, dusk and night and more.

The Body VR (education 20mins)

The Body VR is an educational virtual reality experience that takes the user inside the human body. Travel through the bloodstream and discover how blood cells work to spread oxygen throughout the body. Enter one of the billions of living cells inside our body and learn how the organelles work together to fight deadly viruses.

Lucky's Tale

(gaming is not part of the Learning Centre's remit but it is a major use of VR so here is one example of VR gaming that families considering their own VR system can try.)

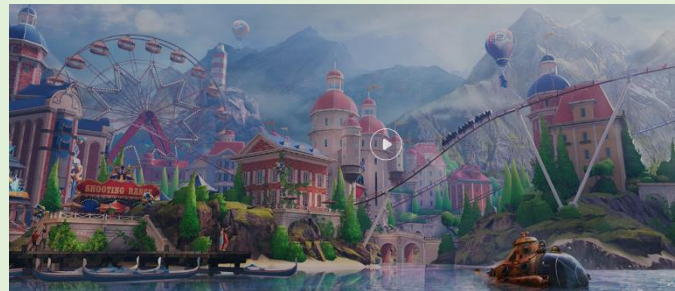

Lucky's Tale is a delightful platforming adventure game designed exclusively for the Oculus Rift. Join Lucky as he runs, jumps, climbs and spins his way through a bright, colorful world filled with thrilling challenges, wacky creatures, and all the shiny things a little fox could ever want! Built from the ground up for virtual reality, Lucky's Tale offers a unique twist on the 3rd person perspective platformer. Its innovative approach to the camera, character motion, environment and

gameplay all work together to provide a highly comfortable experience while allowing players to freely roam diverse, immersive environments. Whether you're racing with Lucky through lush trees, dodging swamp pits, battling menacing bosses, or mastering mini-games, you'll feel like you've truly gone inside the world of a video game thanks to the magic of VR. One of gaming's most beloved genres has found a new home. Lucky's Tale is platforming the way it was always meant to be.

G2A Land (Theme Park)

G2A Land is a virtual amusement park where you experience all the attractions without leaving home OR QUEUING. Stunning undersea journey; the highest rollercoaster, superfast motor bike ride, shooting range.

storytelling and bringing history to life for anyone, anywhere, anytime.

ABE VR

Adults only! Truly disturbing!

ABE VR is an intense experience that recreates the horrifying story about a misguided robot seeking the unconditional love of humans...at whatever cost. Created in Unreal Engine, and continuing our filmmaking in virtual reality, ABE VR is based on ABE the multi-award winning short film, and planned feature film, written and directed by Rob McLellan. No longer do you have to just watch the film, you now get to experience it as a character. Specifically, ABE's chosen victim.

Lost

Experience the wonder of an unexpected encounter in a magical forest.

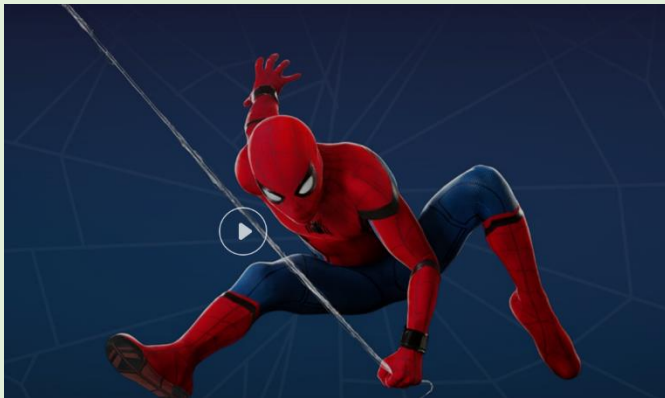

INVASION!

From the director of Madagascar comes Invasion!, a colorful VR animated short about a duo of aliens with grand ambitions to take over our world and destroy anyone who tries to stop them. Instead, they are greeted by the cutest and cuddliest animals on the planet - two adorable, white bunnies....and you are one of them! Come experience what happens! Be sure to look down to see your bunny body! Official selection of Cannes Le Marché du Film and Tribeca Film Festival.
